

LAND WANTED!

ACCESS TO LAND FOR OFF-ROAD ADVENTURES AND DRIVER TRAINING REQUIRED

Natural Instincts would like to secure access to private farms, forests, coastal areas and bushland throughout the North and South Islands.

- *OSH issues discussed & signed off*
- *Remuneration available*
- *Guaranteed Accountability*

If you have access to land which you think is suitable, please fill out one of our contact sheets. Pete Ritchie will be in touch to discuss

Responsible 4w drivers can assist the land owner in keeping remote tracks open. A track that is not used soon becomes over grown and deteriorates, but a track used by responsible Natural Instincts' customers and guides can be kept in a usable state.

We promote responsible and sustainable outdoor recreation by keeping our groups small (maximum 10 vehicles) and educating our customers/clients to become more aware of their vehicles' and their own abilities. At the same time we acknowledge the environment and the impact the vehicles can have on it and take steps to minimise the impact..
