

Quad Bike Training Course Options

Unit Standard Course

This course entails pre learning and assessment followed by a full day of theatrical learning & practical field training.

The applicants are assessed against the unit standards and receive a 'Certificate of Assessment.'

Ideally for applicants:

- With limited experience.
- Required to obtain the specific unit standards for recognised compliance training.
- Who have not completed any compliance refresher training in more than five (5) years (recommendation).

One Day Competency Course

This course entails approximately 1.5 hours theory followed by practical training covering fundamental attributes for cross country riding.

Applicants on this course receive a 'Certificate of Attendance.'

Ideally for applicants:

- Who have previously completed unit standard training within the last four (4) years (This prior experience may need to be verified).
- Wishing to obtain specific training that does not require unit standards.
- Who have changed their vehicle/fleet thus operators require an introduction to the unfamiliar features & latest technology to ensure their safety both on & off-road.

Indictive Course Fees: Effective for all bookings made as of 1 January 2026

Post Course Support:

On completion of training, we will provide a post course report to support your training records.

Supporting training value:

We are able to further compliment and contextualise your training by addressing any concerns where areas of the following are communicated to us prior to training commencing.

- Near miss, incident and accidents
- Unusually high levels of repair and maintenance
- Culture
- Company policies and/or Standard Operating Procedures (SOPs)

Other fleet support for your business:

Natural Instincts also provide fleet support services inclusive of AWD's, 4WD's, trailers, LUVs and Quads.

Opportunities to support safety and compliance around fleet includes:

- Ability to weigh vehicles on site with our portable scales to assist with correct load placement ensuring compliance.
- Fleet reviews inclusive of comprehensive reporting and recommendations.
- Off-road related accident and incident investigations.
- Review and development support for company SOPs, policies and training.
