

## Natural Instincts Services – Version 20/05/2025

It is my pleasure to have opportunity to continue working with our customers as Natural Instincts (NI) head into a new chapter of delivering courses and continuing to provide our fleet support services nationwide.

After working with many successful PTE's and independent training providers through the decades (TR Driver Training the last 8 years) in the role of developing, mentoring, supporting select trainers for all transport types on and off road, developing the materials used for courses, and managing our nationwide database of valued practical venues, NI are excited and ready to drive NI in its own direction as a stand-alone provider.

What does this mean – you will be dealing with the Natural Instincts team in all the support you require.

Bookings/enquiries can now come through to [admin@naturalinstincts.co.nz](mailto:admin@naturalinstincts.co.nz) or by visiting [www.naturalinstincts.co.nz](http://www.naturalinstincts.co.nz).

Need more support – contact Amie Ritchie (General Manager) on 027 427 9304.

What's changing –

- NI have revamped our training courses where you will notice a change in course prices.
- All theory training of our traditional off line courses will be delivered at a suitable venue of your choice.
- **We are going online!** This means that **eLearning** is coming and we are genuinely excited for the opportunity this will bring for our customers.
- We will be able to offer both the traditional offline training which you currently receive with the option of moving to eLearning as its launched for your subject and training level.
- NI will also be launching a new website in early June so will be worth visiting! This will provide news of the launch date of the eLearning courses available as they go live; expected in July sometime!

From the NI team, we greatly appreciate our relationship and look forward to getting some traction from here with you. We invite you to take a look into our rural training & fleet support options below.

### Contextualised Rural, Forest & Corporate Fleet Support

## Investment Overview

All courses can be trained to NZQA unit standard level or remain non-unit standard (competency) based. We can work with you on your business requirements and offer our recommendations based on your specific work type to decide on which option would best suit your workplace and job applications. If none of these options suit your training or fleet support visions, than we welcome further discussion with the Natural Instincts team.

All courses are contextualised to meet any SOP's provided by our customers. Deliveries can also include any specifics by prior planning and agreement.

**Contextualised Rural, Forest & Corporate Fleet Support**

## **Chainsaw (Competency & workshop based only)**

Our Chainsaw course and workshop options cover the fundamentals of how to maintain and operate a chainsaw safely. Relevant parts from the NZQA unit standards are included within the delivery to ensure industry standards are followed for any application.

## **Light Trailer & Chainsaw Workshops**

Workshops provide an introductory and hands on approach basic maintenance & safe operation of the given subject. These are delivered at your workplace or residence.

## **Familiarisations & Safety Seminars**

Familiarisation sessions include discussion and in cabin demonstration to introduce operators to new or unfamiliar modes of transport.

Seminars provide group discussion, demonstration and opportunity to experience learnt skills under the guidance of an instructor.

## **Fleet Support & Portable Weighing**

Evaluation Days can be facilitated to accommodate any business wanting to evaluate off road transport types. We manage the venue, testing element sites and event facilitation. You manage the rest.

Portable weighing is available to investigate accurate break downs of vehicle and trailed loads using methodical processes & reporting. We bring the scales and expertise to your site to provide support to help you be within safe and legal loading and towing limits.
