Quad Training Programme

Why do a Quad training programme with TR Master Drive Services and Natural Instincts?

- You will be professionally trained by qualified and experienced instructors
- Train at one of our nationwide facilities or your own venue

*One-Day or Two-Day courses for Quad Training meet the needs of most clients. In addition to these options, TR Master Drive Services and Natural Instincts can develop courses to meet specific needs.

Course Aim

To ensure that riders understand and can demonstrate basic knowledge and practical application relating to:

- The characteristics and operations of Quad Bikes
- The operating of a Quad with due regard to the safety of the:
 1. Driver and passengers.
 2. Vehicle.
 3. Terrain and Environment.

Course Structure

The course includes a mix of theory and practical sessions and includes elements relating to:

- Health and Safety
- Preparing a Quad for use
- Riding on flat ground and low friction surfaces
- Negotiating uneven terrain
- Loading and unloading from a trailer
- Recovery from a stall while climbing
- Ascents
- Stability dynamics
- Descents
- Side sloping
- Water crossings (depending on the venue)
- Towing trailers and Quad mounted equipment; sprayers etc
- Ground composition and recognition and what driving techniques to employ with them

In addition to these options, we can develop courses to meet specific needs of clients.

Course Duration

We run both one and two day Quad Bike courses. Our one day course is suited to people with prior off road experience or training. It is also suited to people who currently hold the applicable unit standards and who are looking to complete a refresher course.
