

## Light Utility Vehicle (LUV) Training Course Options

I have provided two options below that will likely suit your requirements however, we do understand that some fields require specialist training. In this case, please feel free to contact us to discuss your training requirements.

### Option 1: Two Day Unit Standard Course

This course entails one full day of theory followed by the second full day of practical field training.

The applicants are assessed against the unit standards and receive a 'Certificate of Assessment.'

Ideally for applicants:

- With limited experience.
- Wishing to obtain the specific unit standards for recognised compliance training.
- Who have not completed any compliance refresher training in more than five (5) years (recommendation).

### Option 2: One Day Non-Unit Standard Competency Course

This course entails approximately 2 hours theory followed by practical driving covering fundamental attributes for cross country driving.

Applicants on this course receive a 'Certificate of Attendance.'

Ideally for applicants:

- Who have previously completed unit standard training within the last four (4) years (This prior experience may need to be verified).
- Wishing to obtain specific training that does not require unit standards.
- Who have changed their vehicle/fleet where users require an introduction to the new vehicle controls and functions.

Please see brief course outline below with indicative costs.

Light Utility Vehicle (LUV) Training Course Options

**Please note that the above indicative course fees:**

- Where applicable, include registration of unit standard credits on NZQA framework.
- Are based on vehicles being provided free of charge by the client – 1 vehicle per 1-2 applicants.

**Disbursements (GST Excl) <sup>2</sup>**

- Venue Hire \$250 per day (unless otherwise specified for some venues)
- Accommodation \$280 per night
- Travel \$180 per hour outside 50k radius of nearest training venue
- Additional Trainer \$1500 per day (10 trainees maximum)

Should enrolment numbers exceed the maximum we can cater for this by supplying an additional trainer in the practical element of training. This is to ensure applicants receive quality trainer attention while also ensuring the health and safety of all involved is not compromised.

NB: If Unit Standard 24560 is required; please bring along a suitable trailer, X4 20L containers (filled with water) and X2 tie downs with you to our site for the practical training day.

Our training venues are located in the following locations –

**What makes us different from all the other training providers:**

- Ongoing specialist professional development for trainers.
- Independent assessment of our trainers to ensure quality and consistency.
- Constant review of the latest technological advancements in vehicle systems and their impacts on drivers and their training.
- Trainers based regionally throughout New Zealand. Available to travel to you if and when required.

**Other fleet support for your business:**

Natural Instincts also provide consultancy services inclusive of AWD's, 4WD's, trailers, LUVs and Quads.

Opportunities to support safety and compliance around fleet includes:

- Ability to weigh vehicles on site with our portable scales to assist with correct load placement ensuring compliance.
- Fleet reviews inclusive of comprehensive reporting and recommendations.
- Off-road related accident and incident investigations.
- Review and development support for company SOPs, policies and training.
