

## Light Utility Vehicle (LUV) Training Course Options

Unit Standard Course – with pre-learning and assessment

This course entails pre learning and assessment followed by a full day of theatrical learning & practical field training.

The applicants are assessed against the unit standards and receive a 'Certificate of Assessment.'

Ideally for applicants:

- With limited experience.
- Required to obtain the specific unit standards for recognised compliance training.
- Who have not completed any compliance refresher training in more than five (5) years (recommendation).

One Day Competency Course

This course entails approximately 3-4 hours theory followed by practical driving covering fundamental attributes for cross country driving.

Applicants on this course receive a 'Certificate of Attendance.'

Ideally for applicants:

- Who have previously completed unit standard training within the last four (4) years (This prior experience may need to be verified).
- Wishing to obtain specific training that does not require unit standards.
- Who have changed their vehicle/fleet thus operators require an introduction to the unfamiliar features & latest technology to ensure their safety both on & off-road.

**Indicative Course Fees:**

Price on appointment.

### Course details

**Enrolment:** 3 candidates maximum

**One day programme:**

- Have achieved unit standard 24553.

**<sup>1</sup>For unit standards 24562 & 24560 candidates must:**

- Have achieved unit standard 24553.

**Post Course Support:**

On completion of training, we will provide a post course report to support your training records.

**Supporting training value:**

We are able to further compliment and contextualise your training by addressing any concerns where areas of the following are communicated to us prior to training commencing.

- Near miss, incident and accidents
- Unusually high levels of repair and maintenance
- Culture
- Company policies and/or SOPs

**Other fleet support for your business:**

Natural Instincts also provide consultancy services inclusive of AWD's, 4WD's, trailers, LUVs and Quads.

Opportunities to support safety and compliance around fleet includes:

- Ability to weigh vehicles on site with our portable scales to assist with correct load placement ensuring compliance.
- Fleet reviews inclusive of comprehensive reporting and recommendations.
- Off-road related accident and incident investigations.
- Review and development support for company SOPs, policies and training.
